Another school year is upon us. As of this writing, we look forward only a fortnight to the arrival of 78 new faculty members who will bring the teaching strength of the College to slightly more than 350 persons, one hundred and fifty more than were on the faculty only five years ago. Those who join us this fall come from 24 states of the union and ten foreign countries: Australia, Columbia, Denmark, England, France, Ireland, New Zealand, and Turkey, in addition to a number from Canada.

And we look forward next month to an anticipated enrollment of nearly 6,100 students, a far cry from the 3,400 of five years past. The physical accommodation of this horde of eager young people continues to tax the efforts of our planners and implementors of buildings. Those of you who have not recently visited the campus will be startled at the mushrooming of a new Science-Math-Computer Building, a new wing to the Arts Building, and a new Education-Psychology facility. And soon, maintenance, commissary, library and other structures will be added in addition to a new college campus called Fairhaven.

Though we talk much of our buildings, perhaps because they are so obvious, we continually remind ourselves that they are only the places for learning and that places are never replacement for the substance of learning. Thus, we are ever watchful for ways of improving quality—in program, in teaching, in research, and in people. It is this concern which has led us to the satellite or cluster college concept, the first of which will be Fairhaven. These small colleges within the college will make possible close student and faculty interaction, giving the advantages of Western of yesteryear. This concern for quality has led to an expansion of our graduate programs, for we recognize that the acquisition and retention of quality faculty relate not only to enrichment of the undergraduate program, but also to that of the post baccalaureate. Thus, we have master's degrees in many areas today and we envisage post-master's degrees on the morrow.

We enter the coming year with confidence, knowing that Western is not only larger but better and will tomorrow be even better still.
Letters

To The Editor:

I found the article in *Western Reports* "LSD-Flight From Reality" (May), very disturbing. It seems to condone the use of LSD and marijuana as a means to escape reality.

Should we encourage our children (young people from 18 to 22 are very immature), to flee from reality? Would it not be better to help them to face the world as it now is and try to do something about the things that are wrong with it?

*We need leaders!* We expect to get them from our colleges! We have people going around lecturing who cannot or do not use proper English. Are we going to get leaders to lead us out of this mess from weaklings who are afraid to "face the music and dance?"

We desperately need young people who are well informed about the facts of world history and present day trends and who have courage and integrity to meet these conditions with intelligent, realistic solutions.

In *Seattle Argus*, Pat McGeer, doctor and specialist engaged in brain research at University of British Columbia and now a member of the British Columbia legislative assembly, says "LSD is a terrifying drug and I am alarmed by the spread of its use—fifty pounds of it are sufficient to produce mental illness in everybody in North America—that is how powerful it is."

Dr. McGeer, in his speech to the B.C. legislature, pointed out that LSD has been used responsibly by doctors and researchers for 20 years before this burst of misuse was started.

"Contrary to the opinions of pseudo experts," he says, "LSD does not expand the mind—but shrinks it and interferes with chemical processes of the brain."

"This is an evil thing."

Other dangerous drugs are used only under prescription of a doctor. This is the way LSD must be used.

FORKS, WASH.

**HOMECOMING PLANS SET**

The campus will come alive to the sights and sounds of the "Roaring 20's" as Homecoming '67 gets underway October 31. Raccoon coats, the Charleston and "23 skidoo" will be common as the classes of 1920 and 1929 are honored by the students of Western.

At 8 p.m. on October 31 Homecoming will kick off as the Viking Palace presents "Royalty Revue" in the Auditorium. A presentation of girls vying for Queen and Princesses will be intermingled with some campus talent.

November 1 will see a presentation of rhythm and blues. The Activities Commission is sponsoring a concert by Ray Charles at 8:15 p.m. in Carver Gymnasium.

Coronation of the Homecoming Queen and court is scheduled for November 2 in the College Auditorium. The winner will be crowned Queen Sigrid XXX and will reign the remainder of Homecoming week.

On November 3, there will be a Field Day all afternoon. Competition between residence halls and off-campus houses in the form of chariot races, pop drinking relays and pie throwing are some of the tentative plans that have been made. Alumni are welcomed to join the fun.

A reception will be held at 9:30 a.m. Saturday, November 4, for the alumni. At 10:30, the Homecoming parade will follow its course through downtown Bellingham. This year's parade will be unusual in that antique cars will be the focal point of transportation.

At 1:30 p.m., the kickoff of the Western-U.P.S. Homecoming game takes place. The halftime celebration, under the direction of Phil Ager of the Music Department, will again be a high point of the day. Homecoming closes with the traditional Queen's Ball held in the Carver Gym from 9 p.m. to 1 a.m. and the Alumni Cabaret Dance at the Elks Club, also starting at 9 p.m.

**ALUMNI TO PLAY UNDERGRADS**

Alumni from the Women's Physical Education Department will play a hockey game against an undergraduate team at 10 a.m. November 4. The game will be followed by a luncheon at noon.

Further information is available from Margaret Aitken, chairman of the department.
With the help of a Carnegie Corporation grant, Fairhaven College has accepted thirteen students this year who will be doing their academic work on an independent basis and assisting the Fairhaven Committee in the development and planning of the new cluster college. The first regular full-sized class of approximately 200 students is still slated for fall, 1968 and it will be housed in temporary quarters in one of Western's residence halls.

By fall, 1968, the new campus with its own academic and residence facilities southwest of the main campus will be ready.

The Fairhaven Program is proving particularly appealing to competent students. Although not an honors college, the Fairhaven Program will demand that the student is responsible for much of his academic progress; hence, evidences of this kind of capability are sought for each new Fairhaven student.

The emphasis upon independent study and discussion and the de-emphasis of lectures requires a more mature student. Because Fairhaven will give the student considerably greater opportunity for discussion with faculty, occasionally students whose high school records are not especially good may find Fairhaven an appropriate college.

Expressions of interest from students and parents suggest that Fairhaven will prove not only attractive to many of Western's capable students but will also bring to the campus outstanding students who otherwise would not apply for admission to Western.
Preliminary plans for Fairhaven College, as shown in the model on the left, recently were approved by the Board of Trustees. The design was prepared by Seattle architect Paul Kirk. The Fairhaven complex includes a main building with seminar rooms, library, faculty offices, dining rooms, and other facilities, and 12 residence halls. The halls house 50 students each and have study, seminar and social rooms.

Since the thirteen students who have been admitted to Fairhaven this fall will have to do a great deal of their work on an individual basis, and because these students will always be the upperclassmen to the larger classes to follow, their selection was especially important. Western's admissions officer was informed of the special capabilities required and, in accordance with these criteria, selected a group of names from the students already admitted to Western. Then the Fairhaven admissions committee, consisting of two Fairhaven faculty and two students, reviewed this list and selected 28. These 28 were contacted by letter and telephone; after they had read the Fairhaven literature and discussed the matter by phone, seventeen came in for personal interviews. Thirteen of these seventeen were recommended for admission and all thirteen accepted.

A summary of the numbers reveals the type of student who is attracted to the Fairhaven Program. From this small sample, it appears that about 85 per cent of capable Western students who plan to live away from home would like to attend Fairhaven. In addition, 27 per cent of students within commuting distance of Western requested admission to the new residential college in spite of the fact that students from this area usually live at home and commute.

The Carnegie money also has allowed an increase in the amount of faculty time spent in planning Fairhaven for the coming year. Faculty members David Mason from the Biology Department, Donald McLeod and Annis Hovde from the English Department, August Radke from the History Department, Stewart Van Wingerden from the Education Department and Paul Woodring are on part-time appointment. In addition, the following are members of the planning committee: Fred Knapman, Richard Payne, Tom Schlotterback, Robert Lawyer, Harvey Gelder of the faculty, and Terry Flanders, Richard O'Brien, Jack Tingstad, Lloyd Adalist and Neal Johns, all students.

The broad curricular outlines for Fairhaven have been developed and a new brochure which includes this curricular description will be available in October. Alumni who have particular interest in Fairhaven or who know high school students who may become interested in Fairhaven are invited to send for this brochure. It is important to the new college that word be passed on to the high school students so those who are attracted by the Fairhaven Program will know of it in time to send their applications to Fairhaven and to further investigate the college.

Seattle architect Paul Kirk presented the preliminary plans for Fairhaven at a Board meeting on September 27 and the building program is moving along at a pace which should result in completion of the buildings in time for the fall, 1969, class.

In line with the goal that Fairhaven should serve as Western's experimental division and remain flexible in its development, the Western Board of Trustees passed a motion on July 21, 1967, which states that the Fairhaven Dean will report directly to Western's president.

To support the innovative and experimental programs planned for Fairhaven as well as full use of the living-learning environment, funds beyond the state's support are necessary. It is vital to the development of Fairhaven and other unique, special Western programs that the alumni support these new programs and let others know about our aspirations. The ideals of the small residential college are valued by many individuals and particularly in California, the University of California at Santa Cruz and the University of the Pacific at Stockton, there has been successful appeal to private donors for support of the special programs. The Fairhaven Dean and the officers of the Western Washington State College Foundation will be pleased to provide more information concerning the goals and aims of Fairhaven to alumni who may wish to support this effort or to other interested individuals who may wish to assist us. We believe that within a very short time Fairhaven will be widely known for its commitment to undergraduate liberal education and its ability to provide an outstanding program.
Pat Morton
in Nepal

ALUMS ON ASSIGNMENT:

Between camping in the shadow of Mt. Everest and witnessing some of the world’s most exquisite religious festivals, Patricia Anne Morton (’57) has little time to become bored. She is secretary to the Deputy Chief of Mission at the American Embassy in Kathmandu, Nepal, and she uses her off-duty hours to see and study the Himalayan kingdom.

Patricia, who is due back in the U.S. this month for home leave and reassignment, recently recalled her trip to Mt. Everest, the world’s highest mountain.

“I could have stayed in one place for a week and seen something new and different every moment I was there. It is entrancing to watch a waterfall cascading down the side of a mountain and to see icicles form along a river bank as sprays of water from the rushing river are caught and held by an overhanging bush.”

Before joining the Foreign Service branch of the Department of State, Miss Morton flew over Mt. Everest on a round-the-world trip. At the time, she never dreamed she would camp at its base and explore its lower regions.

On the camping trip, Sherpa guides accompanied Patricia and her party. (Sherpas are Tibetans who live on the high southern slopes of the Himalayas.) She recalled how one of the guides nearly doubled up with laughter watching two others practically carrying her down a difficult trail and over a river.

“He thought it was funny because he had done it so many times before without batting an eye,” she said. “He also would get ahead of us on the trail, then sit down and strum his guitar while waiting for us to catch up.” But she had nothing but praise for the Sherpas, who she found remarkably easy-going and cheerful people. It was the Sherpas who joined Jim Whitaker and his party in the first conquest of Mt. Everest by an American.

Talking about some of her other experiences, Patricia explained that the Nepalese are a very religious people and that the landscape is dominated by temples, stupas, and pagodas that vary immensely in size and shape. For the most part, the temples are concentrated in large “temple squares” in each city rather than being spaced around the community. Many are ornately carved with historical scenes which Patricia described as “fascinating.”

In traveling around the kingdom, she has visited many monasteries and examined their treasures of ancient art, witnessed a number of Hindu and Buddhist religious festivals, dined with a Head Lama, and attended rice-planting ceremonies.

She also stayed overnight in a Sherpa home where she feasted on yak cheese and drank yak milk.

Living in Nepal has required some adjustments for her, including the use of kerosene for cooking and heating. “One of the hardest adjustments,” she said, “is putting on a cocktail dress or formal gown, then climbing gracefully into a jeep to go to an embassy party.”

Last year, Patricia said she witnessed an unusual bit of diplomatic history: the first marriage of American ambassadors. Her boss’s boss, Ambassador Carol Laise, was wed to Ellsworth Bunker, who now heads the American Embassy in South Vietnam.

Patricia was sent to Nepal, her first Foreign Service assignment, after completing an orientation course in Washington, D.C. Nepal has been a land of legend and mystery for centuries; and it is still a new country for most Americans, although an increasing number of tourists are going there each year. The name of its capital, Kathmandu, is derived from the name given a temple —Kath Mandir—which was built from the wood of a single tree in 1596. The temple itself still stands in the heart of the city.

The American community in Kathmandu numbers about 500 and is comprised of personnel in the Foreign Service, the U.S. Information Agency, and the U.S. Agency for International Development as well as representatives of American business firms and a number of missionaries.

Many Americans live in converted Nepalese houses with small rooms but large verandas and corridors. Patricia has an apartment in what formerly was a palace. A 90-foot balcony goes with the apartment.

While on home leave this month, Patricia plans to visit her home at Napavine, Washington. Her brother, Delbert, was graduated from Western in 1962 and presently is teaching at Federal Way near Tacoma.
ALBERT VAN AVER DIES

Albert Van Aver, a member of the English Department faculty at Western for the past 27 years, died August 23 in a Bellingham hospital. Just before his death, he had been granted a sick leave for the 1967-68 academic year.

Dr. Van Aver came to Western in 1939 from the University of Oregon where he had taught for two years. He previously worked as a reporter for the Los Angeles Times and had taught in a secondary school and a junior college.

As his record at Western testifies, Dr. Van Aver took seriously the total responsibility of his position as a faculty member: responsibility to the students, to the administrative needs of the college, to the community, and to the demands of scholarship in teaching.

For many years he sponsored the Critic's Club for those interested in literature and, in addition, served as a faculty representative to the student legislature. He also served on a number of faculty committees, including the Library Committee and the departmental Graduate Studies Committee. As chairman of the latter, he was chief architect of the present Master of Arts program in English.

Dr. Van Aver was a founder of Western Reports and the Summer School Proceedings and served as editor of both for a number of years.

Dr. Van Aver's scholarship was concentrated primarily on Oriental and Biblical literature, and his writings revealed a clear and sympathetic understanding of both. His articles, published over a period of 43 years, appeared in such diverse journals as The New Republic, Darshana International, and The Personalist. His style ranged from the journalistic to the scholarly.

Dr. Van Aver's commitment to humanistic ideals and values were as evident in his classroom teaching as they were in his published works. He taught Shakespeare not as an historical or literary phenomenon only but as an example of "high seriousness" as having the power to refine and to elevate the mind and sensibility of the student.

During his illness, which plagued him for nine years, former students who had caught something of his vision were his most loyal sympathizers and visitors. In the last months before his death, Dr. Van Aver drove himself to the study and to class even though he was desperately sick. Many of his articles were written during his illness, the last of which will be published posthumously.

FEDERAL GRANTS AWARDED

Federal grants for library development, graduate studies, local and regional problems, biology and psychology studies were awarded to Western during the summer.

Congressman Lloyd Meeds and Senator Warren Magnuson notified the Bureau for Faculty Research of the grants.

Included was $35,431 for library materials. The grant was made by the Department of Health, Education and Welfare (HEW) under Title II-A of the Higher Education Act of 1965.

Another HEW grant of $41,758 was made to support graduate studies at Western. The total includes $10,710 for mathematics faculty development and $5,000 for mathematics library development. Another $5,000 is to be used for library development for the English department. Money also was provided for $17,498 worth of library materials in the area of elementary and secondary general science and for $3,550 worth of curriculum materials.

The U.S. Office of Education awarded three grants totalling $27,819 under Title I of the Higher Education Act. The funds are to be used to continue educational programs on water and regional development in the Northwest and to produce a television series anticipating the environment in Northwest Washington by the year 2000.

The National Science Foundation granted $13,300 to Dr. John Erickson of the biology department and HEW granted $4,026 to Dr. Merle Meyer of the psychology department. Both grants are to continue research already under way.

SEARCH FOR NEW PRESIDENT CONTINUES

A four-member Faculty Selection Committee has been working closely with the Board of Trustees in search of a president to replace Dr. Harvey C. Bunke who left Western September 1.

Bunke resigned to accept a new position as director of undergraduate studies at the University of Indiana. Dr. Charles J. Flora, a biologist who served as academic dean for the past two years, is interim president.

Dr. Robert Lawyer, director of the library and chairman of the faculty committee, said recently that selection activities have been slowed during the summer. He added, however, that an extensive list of nominations and applications have been received and are now being processed.

Lawyer also said the committee and the Board hope to name the new president sometime between the first of the year and early spring.
BREWSTER, NEUZIL WIN TEACHING AWARDS

Dr. Laurence Brewster, professor of speech, and Dr. Edward F. Neuzil, professor of chemistry, were selected by the student body last spring as winners of the Patricia Abel Outstanding Teacher Award.

Each received a $100 award and an engraved desk pen set at a banquet.

The two were selected from nominations by the general student body.

Brewster received his doctorate from Iowa University and has been teaching at Western since 1948.

Neuzil received his doctorate from the University of Washington and has taught at Western since 1959. He was one of the two outstanding teachers selected by the students in the 1963-64 academic year.

CONTINUING GRANTS SOUGHT FOR POVERTY PROGRAMS

New grants for the continuation of Western's two highly successful anti-poverty programs are being sought for next summer.

A $100,000 grant from the Rockefeller Foundation, which financed Project Catch-Up for the past two summers, will expire June 1, 1968. Sterling Brand, co-director of the project, said that funding for the continuance of the program is being sought and will likely come from a new source.

A grant of $133,214 from the Office of Economic Opportunity, which financed Project Overcome as part of the national Upward Bound program, will expire on June 30, 1968. Funds will be sought from the OEO to finance the program for its fourth consecutive year of operation, according to Sy Schwartz, project director.

Brand, who is principal of Mountain View School in Ferndale, has worked with Project Catch-Up since its inception. The program is directed by Dr. Evelyn P. Mason, associate professor of psychology.

Catch-Up is a remedial and facilitating program for culturally disadvantaged American-Indian, Mexican-American and European-American junior high school students. Last summer there were 48 participating youngsters, all but one of them from Whatcom and Skagit counties. The exception came from Snohomish County.

Brand said the summer's activities included trips to Victoria and Vancouver, B.C., Seattle Center, the University of Washington, Mt. Baker and the beach. Some trips were primarily for recreation, others were related to classroom activities.

The academic program for Project Catch-Up included instruction in language and quantitative skills, as well as individual projects in the general areas of science and art. Participants were selected on the basis of teachers' judgment of good academic potential, school performance below potential and social-economic handicap. Serious emotional or physical handicaps bar participation.

Schwartz, an assistant professor of education, replaced Dr. Thomas Billings as director of Overcome last summer. Billings is now the national director of Upward Bound.

Project Overcome gives socially disadvantaged high school juniors an emotional and educational boost intended to pave their way into college.

Last summer there were 98 participants on the campus, about half of them for the first time. Their activities included visits to Victoria and Vancouver, B.C., and to the Sixth Annual Anacortes Arts and Crafts Festival.

Most of the students were from the Seattle-Tacoma area, and a few were from Indian reservations around the state.

This fall, some 70 participants in Project Overcome will be enrolled as regular Western students.

Selection of students for the project is based upon student potential rather than upon grades.

Overcome, which ran for eight weeks, had a staff of 36 persons. Catch-Up, a nine-week program, had a staff of 20.

All of the students in both projects lived in the Ridgeway Residence Hall complex on campus.

HEAD START GRANT AWARDED

Twenty-five trainees are participating in the first of four eight-week training programs for aides and teachers with Project Head Start. The first session began Oct. 2.

Under terms of a $162,000 grant to Western's Department of Education by the Office of Economic Opportunity, the training programs will include two nursery schools conducted by Miss Barbara Bieler and Mrs. Mildred Trunkey. The grant is from the Office of Economic Opportunity.

Project manager is Dr. Bearnice Skeen and coordinator of instruction is Mrs. Supriya Mookherjee.

Other sessions are scheduled for Jan. 8, April 1 and June 17.
ARTS AND LECTURES SERIES

The Arts and Lecture Series this fall consists of two concerts and four art gallery exhibits. The Anna Sokolow Dance Company will open the series November 5 with a program of modern dance at 8:15 p.m. in the College Auditorium. Miss Sokolow is a major choreographer and is generally considered to be an exponent of the theatre of protest. On November 14, Nelson and Neal, well-known Australian-American two piano team, will present a concert at 8:15 p.m. in the College Auditorium.

Although the Arts and Lecture Series is primarily for Western students, a limited number of tickets will be reserved for public sale and will be available at the Viking Union desk two weeks prior to the performance. The following art shows will be in the Western Art Gallery (Room 201 of the Arts Building). Hours are 8 a.m.-5 p.m. and 7-10 p.m. Monday through Friday.

British Columbia Artists—October 17-November 3. This group exhibition of some of British Columbia's leading contemporary artists is on loan from the Bau-XI Gallery in Vancouver, B.C.

Marsden Hartley—November 6-24. Marsden Hartley was one of America's pioneer modernists and this collection of paintings, drawings, and prints will survey the work of Marsden Hartley.

Contemporary Crafts Invitational Exhibition—November 27-December 15. This invitational will include works by Marvin Lipofsky, Harvey Littleton, Tim Crane, Paul Soldner, Mr. and Mrs. Fred Bauer, and Katherine and Ed Rossback. Most of these works will be available for purchase.

The institute offered the brightest of the state's high school juniors a chance to become familiar with college life and to compete with their peers.

An indication of their high ability was provided when the group took the Miller Analogies Test, a widely used instrument for appraising academic aptitude for graduate study. Dr. J. Alan Ross, dean of graduate studies, explained that the students "earned scores well within the distribution expected of applicants for graduate study."

NEW BOARD MEMBER APPOINTED

Harold Philbrick, a banker and resident of Seattle, has been appointed to Western Washington State College's Board of Trustees.

He succeeds Marshall Forrest whose term expired in June.

A resident of Bellingham from 1948 to 1959, where he was vice president and manager of the Bellingham branch of Seattle-First National Bank and president of Rotary Club and YMCA board, Philbrick made his first board appearance at the July 21 trustee meeting.

Now vice president and manager of the national and special accounts department of Seattle-First National Bank, which deals with large companies and correspondent bank relationships, Philbrick is the second trustee to have been appointed by Governor Evans.

Philbrick received his bachelor of arts degree from the University of Washington and his M.B.A. from Harvard University School of Business, Cambridge, Mass.

HIGH SCHOOL STUDENTS ATTEND INSTITUTE

A group of 65 high school juniors, representing top students in 31 Washington state high schools, spent six weeks in a summer institute on campus studying sophomore-level college courses.

The students all took courses in electronic computer programming and anthropology. Each also chose two courses from the fields of biology, physics, mathematics and Russian.

The Giftedness and Creativity Institute was directed by James L. Hildebrand of the mathematics department. Hildebrand, who conducted a similar institute in 1963, said that he expects the institute will become a regular feature of Western's summer program.

All of the students will be granted college credit for their work if they return to Western as freshmen. Some other state institutions also may grant college credits to the students.

The institute offered the brightest of the state's high school juniors a chance to become familiar with college life and to compete with their peers.

An indication of their high ability was provided when the group took the Miller Analogies Test, a widely used instrument for appraising academic aptitude for graduate study. Dr. J. Alan Ross, dean of graduate studies, explained that the students "earned scores well within the distribution expected of applicants for graduate study."

NEW BOARD MEMBER APPOINTED

He succeeds Marshall Forrest whose term expired in June.

A resident of Bellingham from 1948 to 1959, where he was vice president and manager of the Bellingham branch of Seattle-First National Bank and president of Rotary Club and YMCA board, Philbrick made his first board appearance at the July 21 trustee meeting.

Now vice president and manager of the national and special accounts department of Seattle-First National Bank, which deals with large companies and correspondent bank relationships, Philbrick is the second trustee to have been appointed by Governor Evans.

Philbrick received his bachelor of arts degree from the University of Washington and his M.B.A. from Harvard University School of Business, Cambridge, Mass.

3,000 ENROLLED FOR SUMMER SESSION

Workshops, special institutes, poverty programs and a host of special events were combined for the 1967 Summer Session at Western.

Summer enrollment topped 3,000 students for the first time in the six- and nine-week sessions, as well as in the 16 special events. The latter ranged from a Birch Bay Music Camp for high school musicians to National Science Foundation institutes in mathematics and physics.

There were hundreds of high school and junior high school youngsters on the campus to participate in Project Overcome, designed to aid socially disadvantaged high school juniors; Project Catch-Up, a remedial and facilitating program for culturally disadvantaged junior high students, and a Giftedness and Creativity Institute, providing opportunities for competition for 60 of Washington state's most gifted high school juniors.

Noted educators from across the country were on campus to direct or participate in special programs.
270 ATTEND ALUMNI DAY

More than 270 persons attended the June 3 Alumni Day festivities on the Western campus. Registered guests included 27 members of the Golden Year class of 1917, 10 members of the Silver Year class of 1942 and 11 retired faculty members.

Dr. Paul Woodring, distinguished service professor and editor-at-large of Saturday Review, pointed to the future of Western in his address following the evening banquet in the Viking Commons.

He cited the development of cluster colleges, such as Fairhaven, as one of the means to "regain some of our old intimacy." He also suggested that there will be a leveling off of Western's enrollment at between 8,000 and 9,000 by the late 1970s or early 1980s because of the declining birth rate in the United States.

Dr. M. A. (Pat) Allan, a 1935 graduate of Western and currently president of Highline Community College, served as master of ceremonies. Dr. Allan, who earned his master's from Western in 1952, recalled the happenings of the past for the alums and guests.

Dr. W. W. Haggard, president emeritus (1939-58), also touched on the past and paid tribute to Sen. Ernest Lennart for his aid to the college during legislative sessions. Three "old timers" were given special recognition at the banquet. They were Mrs. Lillian Whitney, class of 1901, and Minnie Byron and Alice Gookins, both from the class of 1902.

Bert Foster, Bellingham, responded for the Golden Year class of 1917 and Mickey Smith, Longview, spoke for the Silver Year class of 1942.

In addition to Dr. Haggard, retired faculty members who attended the banquet included Priscilla Kinsman, Hazel Plympton, Dr. Irwin Hammer, Dorothy Button, Irene Elliott, Ruth Burnet, Leona Sundquist, Myra Booth, Ruth (Weythman) Van Wickle, and Pearl Reese.

Sam and Doris Buchanan, who retired last spring, also were honored at the banquet.

Long-time alumni workers George Fallis, Louis Lallas, Harvey Culbertson and Art Runestrand were presented plaques by Alumni President Fred Boede.

New board members, Bill Dolby, Doris Johnson, W. O. E. (Bill) Radcliffe, Gordon Smith, Dr. August Zoet and Frank Zurline were introduced by Boede.

Campus tours and a luncheon were among the activities of the day.

Ex-Editors Get Together—Three former editors and an advisor of the Collegian (above) gathered during Alumni Day events to talk about their newspaper days. They are, from left, Al Biggs ('41), Seattle; Cecil Thomas ('51), Anacortes; Ruth Burnet, advisor from 1942-53, Menlo Park, Calif., and M. A. "Pat" Allan ('35), Seattle.

Alumni Class Speakers—Representing the honor classes at Alumni Day (right) were these three Western graduates.

From left are Mickey Smith ('42), administrative assistant for Longview School District; Mrs. Nadine (Schilling) Smith ('57), a ninth grade teacher in Everett, and Bert Foster ('17), Bellingham businessman.

Alumni Day Meeting—A number of "old timers" (above) returned to Western June 3 to briefly review the past and to take a look into the future. Shown talking just before the banquet are, from left, Mrs. Bernice Hall ('42), general chairman, Bellingham; Dr. W. W. Haggard, president from 1939-58; and Fred Boede ('60), alumni president, Seattle.

ALUMNI, DEVELOPMENT DIRECTOR NAMED

Ted G. McQuary, a 32-year-old attorney, has been named to work with development and alumni affairs at Western.

Educated in Spokane, Ephrata and Tacoma, McQuary was graduated from Billings Senior High School in Billings, Montana. He attended Milligan College in Johnson City, Tennessee, and received his LL.B. from Vanderbilt University Law School in Nashville, Tennessee, in 1963.

Having practiced law for two years in Tennessee, McQuary worked as area coordinator under the community action program for the states of Mississippi and Alabama with the Office of Economic Opportunity in Washington, D.C.

He subsequently became assistant to the director of community action programs on the Washington, D.C., staff and was later named acting director of the national legal services program covering 11 north-central states.

Traveling to Chicago, he became contract negotiator, then associate general counsel for the Airline Pilots Association International.

At Western, McQuary will be in charge of Alumni Association relations with the college and coordinate alumni activities.

He will be responsible for capital campaigns, large donations, gifts, such as works of art and private libraries, as well as deferred gifts involving estate planning service which is made available to persons wishing tax information for their attorneys. McQuary also hopes to create larger endowments and family annuities.

He also is executive secretary of the W.W.S.C. Foundation, and is housed in the Office of Development and Public Information in Old Main.

FOUNDATION CHAIRMAN NAMED

Rogan Jones Sr. of Bellingham was elected chairman of the Western Washington State College Foundation for 1967-68 at the organization's second annual meeting in June.

Stephen Chase of Everett is the outgoing chairman.

Mrs. Richard Fleeson, Bellingham, was elected to succeed Jones as vice-chairman of the Foundation.

Chase and Miss Arta Lawrence, Bellingham, were each elected to five-year terms on the Foundation Board.

BOOSTER BANQUET RAISES FUNDS

Persons attending the first Viking Alumni Booster Banquet last May at Bellingham Golf and Country Club have begun planning for next year's event.

Chairmen of the buffet dinner and dance were Moose Zurline and Dick Stark of Bellingham. More than 100 alumni and former students attended. Proceeds from the event went to the athletic department's blazer fund.

Because of interest shown in the booster banquet, alumni members are planning to attend the Homecoming game together, then return for a dinner and dance.

NOTICE

In the past few months, the Alumni Office has added new staff members and equipment. During the same period, the alumni mailing list has been increased from 10,000 to nearly 18,000, but the search for missing members goes on. If you know of anyone who has attended WWSC and is not receiving Western Reports please complete and return the coupon below.

Parents of alumni, who still are receiving mail for their sons and daughters, are also asked to return the form below so that mail will be properly addressed.

Finally, we ask that alumni send us news clippings concerning themselves and other former students as a means of helping us keep abreast of their jobs, activities, and interests.

ALUMNA IS 1ST WOMAN MARINE IN VIETNAM

Vera M. Jones ('52) of Santa Cruz, Calif., is the first woman Marine officer to be sent to Vietnam.

Capt. Jones, daughter of Mr. and Mrs. Erle E. Jones, entered the Defense Language Institute at Monterey, Calif., last spring to take a 12-week course in Vietnamese prior to being sent to Vietnam in June.

She entered the Woman's Marine Corps in 1961, taking her basic training at Quantico, Va. She then was sent to Camp Pendleton for 26 months where she was executive officer of a Woman Marine company.

From Pendleton she went to Paris Island, S.C., for 27 months as commanding officer of a Headquarters Company and then of a recruit training company. She returned to Quantico as a senior platoon commander for woman officer training, then was commanding officer of Headquarters Company here.

She arrived in Saigon in June to begin her one-year tour of duty as officer in charge of Marine Corps Personnel Section with the U.S. Military Assistance Command.

Before entering the Marines, Capt. Jones taught physical education at the elementary, high school, and junior college levels.

SAM, DORIS BUCHANAN RETIRE

Mr. and Mrs. Sam Buchanan, who together contributed 81 years of service to Western, retired last spring.

Mrs. Buchanan began part-time work at Western in the accounting office in 1925 and in 1940 she began working full time. She moved to the Housing Office staff two years ago.

Buchanan came to Western as a student in 1923-24 and attended classes in Old Main and Edens Hall. In 1928, he began working his way through a bevy of titles ranging from bursar to business manager to controller and, most recently, payroll and retirement officer.

Both of the Buchanans received two-year teaching certificates from Western and Mrs. Buchanan later attended Washington State University for a year.

They plan to spend their summers on Lummi Island and their winters in the south in the years to come.

HORSELESS CARRIAGE FANS—Marion Bogdanovich ('54) and his wife, the former Ramona Cass, who attended during the 1952-53 year, drove their 1913 Ford in the Horseless Carriage Club of America tour from Seattle to Vancouver in July, stopping at Ferndale. "Boggie" was a quarterback on the '52 team for Charles Lappenbusch, starting the first four games before injuring his knee. He is a grade school principal at Montesano, a position he's held the past eight years. The couple has six children.

James (Nat) Mount has received a citation for distinguished service as an outstanding high school physics teacher. The award was made after 49 years of continuous service in secondary school teaching at Broadway and Garfield High Schools in Seattle.

Mrs. Joseph (Elsie Rapier) Taylor retired this year following cancer surgery. She taught school in Washington and Oklahoma for 22 years.

Dr. H. Clark Hubler is stationed in Vietnam with the AID program. William M. Kendrick, former director of the supplementary education center of San Diego County, Calif., has been named director of curriculum and instructional services for school district 65 in Evanston, Ill.

Marion O. Oppelt is the new president of Clover Park Community College near Tacoma. Formerly a professional baseball player, he worked as Clover Park School District associate superintendent before being named president.

Mrs. Hazel M. (Swisher) Knudson is a caseworker with the Yuma County Department of Public Welfare in Yuma, Colo. Vera Tesey Hembury has received her master's degree from Seattle Pacific College. Her project was a study of spelling problems of children in the Had don School in Bremerton.

Carl Barbo, principal of Manly Junior High School in Seattle, has become principal of Thomson Junior High School in the Seattle public school system. He joined the Seattle staff in 1943.

Vern Leide has been selected as assistant director of administration and finance for Washington's new community college system. He was a consultant in the State Department of Public Instruction.

Army Lieutenant Colonel Eric C. Phillips received the Joint Service Commandation Medal for meritorious service while assigned as chief of the plans branch, operations division, Army Advisory Group, joint U.S. military advisory group to Thailand from May 1965 to June 1967.

Cdr. James Hayes, a career Navy dentist, died at the age of 43 in the navy hospital at Charles, S.C. He was assigned to Paris Island Naval Base at the time of his death.

Roger Michael is the new principal and sixth grade teacher at Deming Elementary School. Before this, he taught in the Edmonds schools.

Cale (Whitty) Campbell was guest of honor at the South Kitsap High School class of 1957 reunion. The former coach and graphic arts instructor at South Kitsap now lives in Seattle.

Roger N. Dews has been appointed administrative assistant to the president of Allan Hancock College in Santa Maria, Calif. A sabbatical leave last year culminated the first phase of his study on "the preservation of the U.S. Presidency". Vera M. Jones is officer in charge of Marine Corps personnel section, U.S. Command Headquarters, Saigon. Before becoming an officer in the Women's Marine Corps, Captain Jones taught physical education in the Bellingham area.

Robert Funk is director of instructional services for Santa Paula Elementary Schools in Calif. Mabel Johnson is teacher of first grade at East Port Orchard Elementary School. Roger Stearns has been named director of Everett School District's Neighborhood Youth Corps Program. He has been a counselor at South Junior High School since 1954.

R. M. Sundeen is now a Lt. Commander on the ship Pathfinder in Alaskan waters. He spent two years in Hawaii as liaison officer for the Coast and Geodetic Survey and the Navy.

Norman J. Bram is a real estate appraiser in Rolling Hills Estates, Calif. Mrs. Robert Downing of Eureka, Calif., was guest speaker at a meeting of Grays Harbor Christian Women's Club. She has taught music in Washington, Colorado and California.

John Davis is a purchasing chief at Boeing Company in Edmonds.

Mrs. Ramon T. (Barbara Schroer) Heller is a laboratory instructor at Towsen State College in Towsen, Md. Verne Lamon Snutz received his doctor of education degree from the University of Southern California School of Education. Harry R. Ayers is teaching English and history and is assistant basketball coach at Lake Stevens Senior High School.

Mrs. Berniece Leaf is teaching elementary education in the Sedro Woolley School District.

Elmer Keiski is executive director of the Tacoma Association of Classroom Teachers. He was director of the Neighborhood Youth Corps in Thurston County. John D. Albaugh is teaching fifth grade at North Bellingham School. Mrs. William (Clarice Bachman) Stevenson has returned from a trip to South America and she and her husband are planning a tour to Africa. She has taught music in Chehalis for five years.

Fred Boede, A. A. president, was married to Miss Tanya Pakonen, '65, last August. Dean Turnbull has been appointed coach of basketball, cross country and track at Friday Harbor High School. Robert K. Leiek has taken over the office of prosecuting attorney of Skamania County in Stevenson.

Richard Wojt, Chimaucum High School science teacher, is helping determine the effects of insulin injections into the mother on the unborn young under a grant awarded him by Washington State Heart Association.

Donald Henderson received his doctorate in physiology from the University of Texas in 1966 and is living in St. Louis, Mo. He is married to Vivian Graham, also a U of T graduate. Robert C. Johnson is completing an Ed.D. at Arizona State University, Tempe. His special interest is education for the disadvantaged. Don Trethewey has obtained an MS degree in Fisheries from OSU, Corvallis, Ore.

Thomas F. Taylor has been elected assistant manager of the Kennewick branch of Seattle-First National Bank. He has been manager of the installment credit department at Kennewick since 1966. Theodore Mork has a master's degree in education from Western Washington State College. He is teaching language arts at Marcus Whitman Junior High. John W. Betrozoff has been named principal of Clyde Hill elementary school in the Bellevue district. He was counselor at T illicum Junior High School in the same district. Gerald Eugene Thompson received his M.A. from the University of Iowa in June, 1967. First Lieutenant Curtis D. Smith has entered U.S. Air Force pilot training at Williams AFB, Ariz. U.S. Air Force Captain Clarence P. Wiedman has been graduated from the Air University's Squadron Officer School at Maxwell AFB, Ala., and has been reassigned to Sheppard AFB, Tex., as an aircraft maintenance officer for the Air Training Command. Douglas Clarence Lundgren will teach history in the Sedro Woolley School district. Robert N. Mullen will teach science to junior high school students in the Sedro Woolley district.
'64 Mrs. R. Keith (Lucia Smoyer) Klaus is teaching in Camas, Wash. . . . Perry F. Mills has been placed as a graduate trainee with Westinghouse Electric Corporation in Pittsburgh, Pa. . . . Lynn Armstrong is a field representative for Aetna Life and Casualty Company in Milwaukee, Ore. . . . William Matthew Genther received a master of arts degree from Chapman College in Orange, Calif., in June, 1967. . . . James T. Hopkins has been commissioned a second lieutenant in the U.S. Air Force upon graduation from Officer Training School at Lackland AFB, Tex., and has been assigned to Offutt AFB, Neb., for training and duty. . . . Mary Lee Reed and Navy Lt. (J.G.) William John Hein were married July 18, 1967 in San Diego, Calif., where they will live. . . . Dennis Peacock received his M.F.A. in art and Donald Willbur Stirling his M.A. in dramatic art from the University of Iowa in August, 1967.

'65 Kenneth Colvin is teaching instrumental music in Raymond public schools. . . . Lorena Mattison is teaching dance lessons at the Edmonds Dance Studio. . . . John Andrew Hultzheimer is teaching elementary education in the Sedro Woolley School district. . . . Mrs. Laurie H. Lundgren has joined the primary staff in the Sedro Woolley School district. . . . Mrs. Patricia Carolynn Thorn is speech therapist for the Sedro Woolley School district. . . . Roger Ralph Thorn will teach elementary education in the Sedro Woolley School district. . . . Army Captain William C. Parks received the Army Commendation Medal Aug. 17 while serving with the 126th Maintenance Battalion in Germany for meritorious service as company commander of the battalion Company A, Lt. (J.G.) Ellis R. Vonheude has reported for duty as assistant stores officer aboard the destroyer tender, USS Samuel Gompers. . . . Private Larry Mattheis (Patricia Ann Patterson) Metcalf is teaching in Biloxi, Miss. . . . Second Lieutenant Ronald F. Carlson has been awarded U.S. Air Force silver pilot wings upon graduation at Laughlin AFB, Tex., and has been assigned to Griffiss AFB, N.Y., for flying duty.

'66 David O. Jones is a graduate student in West Lafayette. . . . Joan Armstrong is Army Private Kenneth E. Zabel, Jr. completed a fuel and electrical systems repair course June 23 at the Army Ordnance School, Aberdeen Proving Ground, Md. . . . Leonard R. Bean was promoted to Army Specialist four July 14 near Cam Ranh Bay, Vietnam where he is serving with the 623rd Quartermaster Company. . . . Linnea Marie Berg received her AB in Ed. from Harvard University, Cambridge, Mass., June 15, 1967. . . . Harold L. Gappa was commissioned a second lieutenant upon graduation from the Officer Candidate School at the U.S. Army Artillery and Missile Center at Fort Sill, Okla., May 23. . . . Army Private Richard V. Jones completed a basic military journalist course Aug. 3 at Defense Information School at Fort Benjamin Harrison, Ind. . . . Pamela Hagen is teaching second grade at Mount Erie School. . . . Jerry G. Metcalfe has been commissioned a second lieutenant in the U.S. Air Force upon graduation from Officer Training School at Lackland AFB, Tex., and has been assigned to Keesler AFB, Miss., for training as a communications officer. . . . Nigel Adams is doing research on the history of Holden from 1880-1957 in preparation for a book he will write on the unique mining town. He is a historian at Green River College in Auburn. . . . Gary R. Castle has been commissioned a second lieutenant in the U.S. Army upon graduation from Officers Training School at Lackland AFB, Tex., and has been assigned to Chanute AFB, Ill., for training as a missile launch officer. . . . Rodney A. Westrom has been commissioned a second lieutenant in the U.S. Air Force upon graduation from Officer Training School at Lackland AFB, Tex., and has been assigned to Tyndall AFB, Fla., for training as a weapons controller. . . . Mrs. Mary Jean Birkham will teach primary grades in the Sedro Woolley School district. . . . Denny Freeburn is an activities advisor at the University of Washington in Seattle. . . . David Oliver Wallace has been placed with the Great Northern Railroad Company in St. Paul, Minn., freight traffic's market research division. . . . Mrs. Dennis (Jeanne Tanguy) Bunch is a teacher in Fort Worth, Tex. . . . Army Private Paul F. Webber, Jr., was chosen basic combat training company's outstanding trainee May 19 at Fort Knox, Ky. . . . Richard M. Rosa was commissioned an Army second lieutenant on completion of the Ordnance Officer Candidate School at Aberdeen Proving Ground, Md., May 25.

'67 Judy Fuller is teaching contemporary world problems at Wapato Senior High School. . . . Marilyn Gay Tripp will teach music to students in grades one through six at Beaverton, Ore. . . . Jane A. Smith is a stewardess for TWA Airlines, She kisses out of El Segundo, Calif. . . . Don Houston is mathematics teacher and head basketball coach at Rivitze High School. . . . Steve Hepp is teaching chemistry and physics at Rivitze High School. . . . James Chenoweth is teaching English for senior high school students in the Kelso School district. . . . Douglas Patrick is a social studies teacher at Ancorates High School. He will also serve as boys' physical education instructor, head track coach and assistant football coach. . . . Jolene Rice is teaching secondary education in Vientiane, Laos. . . . Joseph R. Montgomery has received his commission as Ensign, U.S. Naval Reserve and is awaiting orders for fleet duty. . . . John Sereneta has been named vice principal of Lynden High School. . . . George E. Rough is teaching arts and crafts in the Meadowdale Junior High School. . . . James Hope is teaching instrumental music to grade five through 12 at Greater Sitka Borough School in Sitka, Alaska. . . . Phillip Johnson Jr. is teaching social studies at W. F. West High School where he will also be assistant football coach. . . . Mary Alice Johnson is a computer programmer in the Naval Electronics Laboratory in San Diego, Calif. . . . James D. Lindsay is a community planner for Montgomery Co. Planning Commission in Norristown, Pa. . . . Russell E. McComb is a draftsmen-designer for W. C. Neckum and Sons, Co., in Seattle. . . . James Hathaway and Robert D. Dickinson are with Westinghouse Electric Corporation. . . . Bruce R. Fugitt has joined the Naval Laboratories Research development test and evaluation teams, stationed at Naval Undersea Warfare Center in Pasadena, Calif. . . . Dale E. Shaw has been commissioned a second lieutenant in the U.S. Air Force upon graduation from Officer Training School at Lackland AFB, Tex., and has been assigned to Shaw AFB, S.C., for training and duty in the Tactical Air Command. . . . Mrs. Jerry G. (Patricia Ann Patterson) Metcalf is teaching in Biloxi, Miss. . . . Second Lieutenant Lynn C. Tjorne has been graduated with honors from the training course at Shepard AFB, Tex., for U.S. Air Force technical instructors. She will remain at Sheppard for duty as an education and training officer. . . . Mrs. Vicky Senff is an English instructor at Forest Hill High School. . . . John Anderson will teach art at Sedro Woolley junior high school. . . . Francis L. Dawson will teach English and Walter David Fitzgerald will teach in the primary grades in the Sedro Woolley School district. . . . Pete Keri will teach elementary education at Sedro Woolley School district. . . . Robert D. Dickinson has been placed as a graduate trainee with Westinghouse Electric Corporation in Pittsburgh, Pa.
FOOTBALL

Western will meet the University of Puget Sound in the annual Homecoming game at 1:30 p.m. at Civic Field on November 7. The Vikings dropped their opener Sept. 16 against Central Washington State College, last year's Evergreen Conference champion.

But Fred Emerson, in his second season as head coach of the Vikings, sees better days ahead. With only 13 returning lettermen among 60 candidates who showed up on opening day, Emerson has little continuity from last year.

The Vikings do have one of the best quarterbacks in the conference in senior Pat Brewin who last season completed passes for more than 800 yards. Most of his yardage was picked up late in the season when he changed from a rollout to a straight dropback pass.

The toughest job in the backfield has been to come up with replacements for Tom Guglomo and Steve Richardson, the latter a NAIA All-American. Several have been showing well, including Bob Unick and Al Anderson, both lettermen; and Russ Lee, John Weaver and Joe Parker.

Leading the offensive line is Al Divina, a senior tackle who was an all-conference selection last year. Two other all-conference selections—sophomore guard Jack Dolan and senior end Dave Weedman—are the mainstays of the defensive squad. Weedman won the honor for the second straight year, and was named to the Washington State Coaches All-Star squad and the AP All-Northwest team.

Emerson is using the I formation again this year with more emphasis on passing.

BASKETBALL

Head coach Chuck Randall predicts a great year for Western Washington basketball. He cites the fact that last year Central Washington, the EvCo champion, finished third in the N.A.I.A. playoffs. This year he feels the Big Blue will be the toast of the Evergreen Conference and have a good chance to become the No. 1 team in the N.A.I.A. tournament.

Although known as an optimist, Randall seems to have the personnel to back his claims. Mike Dahl, Western's 6'4" center will be returning for his final season. Last year Dahl led the Viks in scoring while being an honorable mention pick in the N.A.I.A. All-American choices.

Also returning will be guards Paul Hallgrimson and Mike Clayton. Both shot close to 50 per cent from the field and are equally tough defensively. Gary Reisgard will be returning at a forward position along with Whit Hemion. Although the Vikings lost forward John Hull and guard Al Russell through graduation, Randall feels he will have equally good ballplayers at their positions.

Two junior college transfers seem to bear out his opinion. Ron Caderette, a transfer from Clark J.C., should fit well in Randall's system both offensively and defensively. Jim Lee, another transfer from Columbia, was an all-stater while a prep at Goldendale. He could be the man to fill Hull's shoes. And freshman John Reed also will be given a shot at a starting berth. Randall rates Reed as the best player on the Renton High School team that was No. 1 in the state.

Randall feels that defense will win games. Last year the Viks were eighth in small college defense and finished with a 17-8 mark. This year Randall feels his squad will be No. 1 in defense.

CROSS-COUNTRY

Coach Boyd Long feels that his 1967 cross-country squad will hold its own this season. Bill Cliff, who missed last season, will be returning. Also on the squad will be Jim Shephard (junior, Suquamish), Al Wright (sophomore, Seattle), Larry Anderson (sophomore, North Bend), Steve Swan (sophomore, Bellingham) and newcomers Jim Kuhlman and Dick Pugh.

Long, who was appointed as the cross-country head coach last spring, is confident that his squad will compare favorably with those at other colleges in the area.

SPORTS NOTEBOOK

A committee is being formed to develop criteria for membership in Western's Hall of Fame in athletics. A ceremony to install the first members is being planned during half time of the basketball game (Western vs. Central) on Alumni Day, January 27.

An exhibition game between the two newest members of the National Basketball Association—the Seattle Sonics and the San Diego Rockets—was termed "highly successful" by Athletic Director Bill Tomaras. The game was sponsored by the Alumni Association the "W" Club to raise funds to complete payment on new blazers which will be worn by all athletic teams representing Western.

Several rows of seats at Civic Field have been reserved for alumni by the athletic office for home football games. The area will be designated and alumni should identify themselves at the gate.

A new display case, purchased by the "W" Club, has been added to the main corridor in Carver Gymnasium. It contains photos from Chuck Lappenbush's collection that date back many years, as well as pictures and other items of current interest.
Homecoming Schedule

Friday, Nov. 3
Field Day, all afternoon, Athletic Field
Bonfire and rally, 5:30-6:30 p.m.
Alumni-Senior Social Hour, 7 p.m.

Saturday, Nov. 4
Alumni Reception, 9:30 a.m. Viking Union Lounge
Homecoming Parade, 10:30 a.m., Downtown
Football Game with UPS, 1:30 p.m., Civic Field
Smorgasbord, 5-7 p.m., Viking Commons
Queen’s Ball, 9 p.m., Carver Gymnasium
Alumni Cabaret Dance, 9 p.m., Elks Club
