2010 EXIT SURVEY OF GRADUATE STUDENTS COMPLETING DEGREES
FALL 2009, WINTER 2010, SPRING 2010, AND SUMMER 2010
ADDENDUM

INTRODUCTION

The graduate exit survey is a quarterly survey of all graduate students set to finish their degrees. This survey is fully explained and documented in "2010 Exit Survey of Graduate Students Completing Degrees Fall 2009, Winter 2010, Spring 2010, and Summer 2010" which may be found on the Office of Survey Research's website (<http://www.wvu.edu/socad/osr/>). This addendum breaks down the data from that survey by college and department. Hopefully, this data will provide a finer degree of analysis allowing departments and colleges greater latitude in their self-evaluation efforts.

Clarifying Notes

1. Unless otherwise noted, percentages given are of the number responding to a question divided by the number asked that question. This denominator may contain fewer students than the 231 responding to the survey due to question branching, random selection of respondents for certain questions, and survey attrition.
2. In many cases percentages do not sum to one hundred because of rounding.
3. A blank space indicates no respondent chose that response option. A report of 0% indicates that the percent of responses rounded down to, but is not equal with, zero.
4. Because of survey length, some questions were asked of a random sample of students. The notes associated with such questions indicate when this occurs.
5. This report presents responses from all students completing any question regardless of whether the respondent completed the survey or not.

THE OFFICE OF SURVEY RESEARCH

The Office of Survey Research provides high quality survey research and other applied social science research that supports the mission of Western Washington University. In particular, OSR surveys students, alumni, graduates, employers, and the campus community to provide valuable assessment data and analysis of reports which can be used for improvement of programs, instruction, faculty scholarship, and information services. OSR is responsible for developing and administering the Western Educational Longitudinal Study (WELS), Western's Alumni Surveys, and Western's exit surveys of graduating students.
