***The Western Washington University Student Survey Series
Volume Two:
Student Experiences and Perceptions***

Information used in this report series was taken from three inter-related surveys: 1) a five-year follow-up of 1982 Western graduates; 2) a five-year follow-up of individuals who attended Western but left in 1982 without graduating and remained out of Western for at least one year; and 3) a survey of seniors enrolled during spring, 1987, who had completed at least 155 credits.

Volume Two of the series focuses on non-academic experiences such as sources of income and types of problems, students' utilization and evaluation of advising services and of various campus services and facilities, students' perceptions and evaluations of their majors, of General University Requirements, and of Western overall.
