***The Western Washington University Student Survey Series
Volume Three: Western Washington University Students Five
Years Later***

Information used in this report series was taken from three inter-related surveys: 1) a five-year follow-up of 1982 Western graduates; 2) a five-year follow-up of individuals who attended Western but left in 1982 without graduating and remained out of Western for at least one year; and 3) a survey of seniors enrolled during spring, 1987, who had completed at least 155 credits.

Volume Three of the series reviews former students' educational attainment, their employment and job quality, their satisfaction with a wide range of life qualities, and the role Western and their major field played in producing those life outcomes.
