Dear Kim:

Thank you for contacting me regarding the request to place the works of Charles A. Ross and June R. P. Ross that are published in the [Contributions from the Cushman Foundation for Foraminiferal Research](#) and the Cushman Foundation for Foraminiferal Research Special Publication No. 24 into the Western CEDAR (<http://cedar.wvu.edu>) repository. Given the that the Special Publication#24 is freely available on the Cushman Foundation website and it is my understanding that the Contributions will be in the future, I see no reason to decline this request.

As Editor of the Journal of Foraminiferal Research, I grant permission for pdfs of the following articles to be made available via the Western CEDAR repository:

Ross, Charles A. "Fusulinids from the Hess Member of the Leonard Formation, Leonard Series (Permian), Glass Mountains, Texas." [Contributions from the Cushman Foundation for Foraminiferal Research](#) 11.4 (1960): 117-133.

Ross, Charles A. "Fusulinids from the Leonard Formation (Permian), Western Glass Mountains, Texas." [Contributions from the Cushman Foundation for Foraminiferal Research](#) 13.1 (1962): 1-21.

Ross, Charles A. "Fusulinids from the Word Formation (Permian), Glass Mountains, Texas" [Contributions from the Cushman Foundation for Foraminiferal Research](#) 14.1 (1963): 17-31.

Ross, Charles A. "Fusulinids from the *Cyathophyllum* Limestone, Central Vestspitsbergen." [Contributions from the Cushman Foundation for Foraminiferal Research](#) 16.2 (1965): 74-86.

Ross, Charles A. and June R. P. Ross. "Biostratigraphic Zonation of Late Paleozoic Depositional Sequences." [Timing and Depositional History of Eustatic Sequences: Constraints on Seismic Stratigraphy](#). Eds. Charles A. Ross and Drew Haman. (Cushman Foundation for Foraminiferal Research Special Publication No. 24). Washington, D. C.: Cushman Foundation for Foraminiferal Research, 1987. 151-168.

Ross, Charles A. and June R. P. Ross. "Late Paleozoic Sea Levels and Depositional Sequences." [Timing and Depositional History of Eustatic Sequences: Constraints on Seismic Stratigraphy](#). Eds. Charles A. Ross and Drew Haman. (Cushman Foundation for Foraminiferal Research Special Publication No. 24). Washington, D. C.: Cushman Foundation for Foraminiferal Research, 1987. 137-149.

Sincerely,

**Subject:** Requesting permission to add articles to an institutional repository

Dear Editor,

I am writing on behalf of the Western Washington University's repository, Western CEDAR (<http://cedar.wwu.edu>) and Charles A. Ross and June R. P. Ross. The institutional repository is a service of Western Libraries at WWU for academic authors, providing open access to the full-text of their publications. All content includes full bibliographic details, a copyright notice, and a link back to the publisher or journal homepage, if requested.

I'm writing to seek your permission to include the final publisher PDF version of these articles in our repository:

Ross, Charles A. "Fusulinids from the Hess Member of the Leonard Formation, Leonard Series (Permian), Glass Mountains, Texas." [Contributions from the Cushman Foundation for Foraminiferal Research](#) 11.4 (1960): 117-133.

Kindly contact me (at [westerncedar@wwu.edu](mailto:westerncedar@wwu.edu)) to give your permission for including the article in Western CEDAR. Please also include any further requirements you may have.

If you do not solely control copyright in the requested materials, I would appreciate any information you can provide about others to whom I should write, including most recent addresses if available. Thank you for your consideration of this request—I look forward to your reply.

Sincerely,

*Kim*
