Creating a healing and caring community of excellence

Northwest Life Passages Coalition Blueprint

Marie Eaton
Director, Palliative Care Institute, Western Washington University
Chair, Northwest Life Passages Coalition
March 22, 2017 - Elder Service Providers
What is the Palliative Care Institute?

A partnership with other members of the NorthWest Life Passages Coalition Blueprint Group to transform palliative care in Whatcom community and support the human responses to living and dying.
Northwest Life Passages Coalition

Creating a Community of Care and Support for Patients with Serious Illness

Whatcom Alliance for Health Advancement ≈ Palliative Care Institute at Western Washington University ≈ PeaceHealth St. Joseph Medical Center ≈ Family Care Network ≈ Northwest Regional Council ≈ Whatcom Hospice ≈ Health Ministries ≈ Whatcom Council on Aging ≈ Chuckanut Health Foundation ≈ Community Representatives
Services for Seriously Ill or Dying – Often uncoordinated
Coalition & Blueprint History

- WAHA convened a Task Force in 2014
- Question: What it would take to transform Whatcom County into a center of end-of-life excellence?
- Explored existing resources for those with serious illness, advance care planning, palliative care services, and the community understanding about death as a natural part of the cycle of life.
- Identified gaps and areas of need.
- Wrote a Blueprint to guide improvement.
- Blueprint revised in 2017.
Blueprint Pillars

- Palliative Clinical Care
  - Inpatient PeaceHealth
  - Hospice
  - Outpatient FCN PeaceHealth NWRC

- Advance Care Planning
  - WAHA
  - PCI

- Provider Training
  - PeaceHealth

What is Palliative Care?

Specialized care for people living with chronic and serious illness.

Goal is to improve quality of life for both the patient and the family when cure is not possible.

Focuses on providing relief from the symptoms and stress of a serious illness

Provided by an interdisciplinary team of palliative care doctors, nurses, social workers, chaplains, family members and others who work together to provide an extra layer of support.

Appropriate at any age and at any stage in a serious illness and can be provided along with curative treatment.

ASCO Model of PC

1. DISEASE MANAGEMENT
   - Primary diagnosis
   - Prognosis
   - Comorbidities

2. PHYSICAL
   - Pain and other symptoms
   - Function
   - Safety
   - Wounds

3. PSYCHOLOGICAL
   - Depression, anxiety
   - Emotions
   - Fears
   - Control, dignity, independence
   - Conflict, guilt, stress, coping responses

4. SOCIAL
   - Cultural values, beliefs, practices
   - Relationships, roles
   - Financial resources
   - Legal (e.g., powers of attorney)
   - Family caregiver protection

5. SPIRITUAL
   - Meaning, value
   - Existential, transcendental
   - Values, beliefs
   - Rites, rituals

6. PRACTICAL
   - Activities of daily living
   - Caregiving

7. END OF LIFE CARE/DEATH MANAGEMENT
   - Life closure
   - Legacy creation
   - Anticipation and management of physiological changes in the last hours of life

8. LOSS, GRIEF
   - Loss, grief
   - Bereavement
   - Mourning

Public Support for Advance Care Planning

Over 80% of Americans believe that it is important to talk about what kind of treatment one should receive at the end-of-life.

Only 30% have actually had that conversation with their loved ones.

Only 7% have discussed their preferences with their doctors.

Only 35% of general practitioners have initiated these conversations with their patients.

Kelton Global. The Conversation Project National Survey. 2013
Case Study: La Crosse, Wisconsin
The Town Where Everyone Talks About Death

- Initiative in the Gunderson Medical System over 10 years with goal to improve the quality of care at the end-of-life

- 96% of people who die in La Crosse have an Advance Directive filed.

- Side benefit - La Crosse spends less on health care for patients at the end of life than any other place in the country
YOUR VOICE - YOUR CHOICE: LET’S TALK ABOUT IT
Advance Directives honor YOUR choices

Progress Since 2014

Our community and cultural responses to living with serious illness and facing our own mortality or experiencing the death of loved ones continue to evolve.

- Formed Northwest Life Passages Coalition
- Implemented Advance Directive campaign
- Established Palliative care competencies for clinicians
- First steps toward a community-based outpatient palliative care service (Northwest Life Passages at Home).
- Launched Community education and activation series
- Developed coordinated approach to philanthropic funding and opportunities for piloting innovative care payments models.
